

FISTULA FIRST RECOGNITION PROGRAM

During 2008, the Network recognized 71 facilities in the 1st quarter, 85 in the 2nd quarter, 98 in the 3rd quarter, and 107 in the 4th quarter. Each quarter these facilities received certificates and were recognized for their achievement in REMARCS.

The 2009 Recognition Program was reviewed and approved by the Medical Review Board's Vascular Access Committee. As the overall Network AVF average rises, we will continue to recognize facilities that achieve rates above the Network average. **Network 5 currently has an overall AVF rate of 48.7%**, therefore we will continue recognizing facilities achieving a 50% or greater AVF rate, which has been maintained for at least three (3) consecutive months.

Below are the facility rankings for the 1st quarter (January, February, and March) 2009:
