

FISTULA FIRST RECOGNITION PROGRAM

The 2009 Recognition Program, approved by the Medical Review Board's Vascular Access Committee, continues to recognize facilities that achieve AVF rates above the Network average. **Network 5 currently has an overall AVF rate of 50.9%**, therefore we will recognize facilities achieving a 50% or greater AVF rate, which has been maintained for at least three (3) consecutive months. **Recognition is for AVFs in use, not the total number of AVFs placed in the patient population.** Listed below are the facility rankings for the 4th quarter (October, November, and December) of 2009. **Facilities listed in bold with an asterisk (*) have maintained an AVF rate of 50% or greater each month, from January 2009 through December 2009.**

4TH QUARTER 2009

FANTASTIC FIFTIES

AVF rate of 50% to 59.9%, maintained for 3 months

District of Columbia

DaVita - Eighth Street
DaVita - K Street Dialysis
DaVita - SE*
Howard University Hospital*
