

WHAT IF...

NO FACILITY

Most patients think they are prepared for an emergency, but few actually are.

Emergency Checklist

1. Get emergency contact information from your clinic in the event it is destroyed in a disaster.
2. Make sure your dialysis clinic has your correct contact information.
3. Get a 3-day meal plan from your clinic in case dialysis services are delayed/unavailable.
4. Stock foods for your 3-day emergency meals.
5. Keep copies of your insurance cards, dialysis prescription, and medications in a water proof container.
6. Get medical identification jewelry or a card to have on you at all times.

THE FACTS

- Dialysis facilities should have **designated back up facilities.**
- Until the situation is resolved, **you may be bussed to other locations for treatment.** Treatments may also be rationed.
